

APP, LANDING PAGE & BRAND DESIGN BRIEF

Tagline: **Love Where You Live.**

1. Project Vision

Hello Linden is not simply a community app.

It is a movement to reconnect people with the place they call home.

Our mission is to inspire people to discover, support and celebrate their neighbourhood by connecting residents, local businesses and community organisations in one beautifully designed platform.

We believe every suburb has incredible people, businesses, stories and experiences that deserve to be discovered.

Hello Linden is the first chapter of what will become a national neighbourhood network.

Brand Purpose

Helping people love where they live.

Brand Mission

To connect neighbours.

Support local businesses.

Celebrate community.

Encourage discovery.

Strengthen neighbourhood pride.

Long-Term Vision

Build South Africa's most trusted neighbourhood platform.

Starting with:

Hello Linden

Then expanding into:

Hello Parkhurst

Hello Greenside

Hello Melville

Hello Blairgowrie

Hello Bryanston

...and eventually every suburb in South Africa.

2. Design Philosophy

This should never feel like:

- ✗ A municipal website
- ✗ A classifieds website
- ✗ Facebook
- ✗ A community noticeboard

Instead it should feel like:

- ✓ Apple simplicity
- ✓ Airbnb warmth
- ✓ Spotify friendliness
- ✓ Instagram-quality visuals
- ✓ Google Maps usability
- ✓ The welcoming atmosphere of your favourite local café

The design should make users smile when they open the app.

Every screen should reinforce one message:

Love Where You Live.

3. Existing Logo

The logo has already been developed.

The designer should use it as the foundation of the visual identity.

The speech bubble represents:

Conversation.

Community.

Connection.

Communication.

The handwritten HELLO creates warmth and personality.

LINDEN provides structure and clarity.

The bright green creates optimism and freshness.

The identity should evolve from this logo—not replace it.

4. Brand Personality

Friendly

Optimistic

Neighbourly

Welcoming

Modern

Helpful

Positive

Approachable

Local

Authentic

Premium without being exclusive.

5. Emotional Experience

When someone opens Hello Linden they should feel:

"I didn't know that!"

"Let's support them."

"I want to go there."

"I'm proud to live here."

"I love this neighbourhood."

That feeling is more important than the technology itself.

6. Mobile App

The app is the heart of the platform.

It should become part of people's daily routine.

Open the app.

Discover something nearby.

Support local.

Share with friends.

Repeat.

Main Navigation

 Home

 Love Local

 Explore

 What's On

 Share

Home Feed

The homepage should feel alive.

Examples:

Today's Local Specials

Weekend Guide

Community News

Hidden Gems

New Businesses

Local Heroes

Neighbour Stories

Events This Week

Love Local Picks

The feed should prioritise beautiful imagery over text.

Love Local

A curated collection of:

Restaurants

Coffee Shops

Retail

Guesthouses

Markets

Experiences

Featured Businesses

Special Offers

Everything should encourage people to spend locally.

Explore

Interactive map and directory.

Find:

Coffee

Breakfast

Hairdresser

Electrician

Doctor

Guesthouse

Pet Shop

Gym

Park

Everything local.

What's On

Events calendar.

Markets.

School events.

Fundraisers.

Music.

Sport.

Festivals.

Community projects.

Share

Residents can submit:

Events

Community news

Lost & Found

Jobs

Recommendations

Business listings

Everything is moderated before publishing.

7. Landing Page

Purpose:

Convince visitors to download the app.

The landing page should feel emotional rather than technical.

Hero

HELLO LINDEN

Love Where You Live.

Everything happening in your neighbourhood.

Discover local businesses.

Support local.

Explore your community.

Download the app.

Sections

What is Hello Linden?

Why you'll love it.

Explore Local.

Support Local.

What's happening this week.

Meet local businesses.

Join the community.

Download the app.

Business advertising.

Newsletter signup.

8. Photography

Use real neighbourhood imagery.

Not stock photos.

Show:

Morning coffee

Tree-lined streets

Weekend markets

Dogs

Cyclists

Local shop owners

Families

Restaurants

Parks

Friends

Community events

The photography should make people proud of where they live.

9. Illustration Style

Simple.

Playful.

Modern.

Neighbourhood-inspired.

Icons inspired by:

Coffee cups

Trees

Houses

Dogs

Maps

Shopping bags

People

Speech bubbles

Everything should feel friendly and approachable.

10. Colour Palette

Use the existing logo colours as the foundation.

Primary

Bright Green

Forest Green

Supporting

Warm White

Soft Sage

Light Grey

Charcoal

Large white spaces should create a fresh, uncluttered experience.

Green should be reserved for positive actions and calls-to-action.

11. Typography

Keep the handwritten HELLO exclusively for branding.

Use a modern sans-serif throughout the interface.

Typography should be clean, highly legible and welcoming.

12. Microcopy

The language throughout the platform should be conversational.

Instead of:

Business Directory

Use:

Explore Local

Instead of:

Deals

Use:

Love Local Offers

Instead of:

Events

Use:

What's On

Instead of:

Community News

Use:

Around the Neighbourhood

Instead of:

Submit Content

Use:

Share Something Great

Every interaction should sound like it comes from a friendly neighbour.

13. Future Features

The design system should accommodate future growth.

Planned features include:

Neighbourhood Rewards

Digital Loyalty Card

QR Code Specials

Business Dashboards

Resident Profiles

Marketplace

Property Listings

School Pages

Emergency Alerts

Multiple Suburbs

AI-powered Local Recommendations

Video Stories

Community Podcasts

14. Design Deliverables

The designer should provide:

- Complete UI/UX for the mobile app
 - Responsive landing page design
 - Design system
 - UI component library
 - Icon set
 - Brand guidelines
 - App icon
 - Social media assets
 - Newsletter templates
 - App Store and Google Play assets
 - Figma design files
 - Light and dark mode concepts (optional)
-

15. The Measure of Success

The success of Hello Linden will not be measured by downloads alone.

Success is when:

- Residents discover businesses they never knew existed.
- Local businesses grow because neighbours support them.
- Community organisations communicate more effectively.
- People become proud ambassadors for their suburb.

Every design decision should answer one question:

Does this help someone love where they live?
